

Troop Newsletter

Do A Good Turn Daily!!!!

Camp Chairs

12 Camp chairs have been donated to the Troop.

Spices Replenished

Spices in the Trailer have been gone replaced

Thanks Mr. Nettleton!!!

Doing Maintenance on the Troop Trailer .

Welcome To A New Scout Newsletter.....

As the new Scoutmaster, I believe that communication and teamwork will make this Troop Continue to succeed. This Scout Newsletter will update you on the Troops upcoming activities, give tips to make the scouts successful, as well as Volunteer Opportunities. This Newsletter is meant for both Scouts and Parents.

1

SCOUT TIP

Take 15 minutes a Day to go over Scout skills and Review your Handbook.

2

CAMPING TIP

A Scout should pack for themselves, it will help them locate things when looking.

3

LEADERSHIP TIP

Keep Your Word!
Don't make promises you can't keep.

A Little Bit About The Upcoming Year.

“Unforeseen surprises are the rule in science, not the exception. Remember stuff Happens.”-Leonard Susskind

At this time the upcoming year is still a little bit up in the air as far a camping and activities as the CoronaVirus is still wreaking havoc on the world. As the troop is planned out by the Scouts themselves, we have taken their ideas and booked the campsites and activities in hopes that we will have the opportunity to camp in the fall. If we do not get this opportunity to do so, we will continue to hold meetings in the safest way possible hopefully outdoors. The Goal is to get the Scouts out in the Outdoors.

I would also Invite all Scout Leaders and Parents to fill out the Scout Resource information Sheet. This allows us to see what resources are within the troop.

Mrs. Cusano

UpComing Events

July 15th- July 30th- Schedule your Scoutmaster meeting with Mrs. Cusano- I would like to Learn your goals for the upcoming year

August- Hike

Skills Reminders on Tuesday Evenings- these are optional and will help scouts remember skills for upcoming campouts

Dessert Cook off- Make a video of a recipe that can be cooked in a Dutch Oven - Winner receives dessert Cook off prize.

SCOUT MASTER CHALLENGE

This is a plant common to our area. It grows in trailing vines, climbing vines, or shrubs. It has stems of three leaflets that are somewhat shiny with a smooth surface and relatively smooth edges. Leaves turn bright red, yellow, and orange in the fall. It can have a hairy vine. This plant is common in wooded areas especially along breaks in the tree line where sunlight peeks through.

Please email the Scoutmaster your Answer. The Scout with the most correctly answered Scout Master Challenge questions at the end of the Year will be recognized.
